

FRIENDLY POST

A special note from Friendly the Eagle | January 2016

BE A WISE SPENDER.

Saving money is important, but so is spending it - wisely, that is! Why? Spending money wisely can actually help you save money. For example, if you're at the store and you find something "on sale," you could save a few cents or dollars that you could spend on other things in the future.

Here are some helpful tips:

- Watch for sales - Why spend more money than you have to? Ask your mom or dad to help you research what you want to buy and see if you can find it on sale.
- Make a shopping list - It's easy to be tempted on fun things at the store, but if you make a list ahead of time, you'll be less likely to spend more money than you were planning to.
- Only buy what you need - Before you buy something, ask yourself if it's something you NEED or WANT. You need things like clothes, food and school supplies. You may want things like candy, movies or toys.

COLOR & DRAW PICTURES IN THE SNOW!

Freshly fallen snow makes the perfect canvas for your next art project. It's easy! Just put some food coloring and some water in a water bottle and paint away.

What will you color or draw? How about your name, a picture, or a game, like tic-tac-toe or hangman?

Be creative and have fun!

HOMEMADE BIRD FEEDER

Winter is here and, while many birds fly away, some are still here and may need help finding food. You can help by making this simple bird feeder!

Here's what you'll need:

- Large Pinecones
- Mixing Bowl
- Natural String
- Peanut Butter
- Birdseed
- Thumbtack

Making them is easy. Just spread a layer of peanut butter all over the inside and outside of the pinecone and roll it around in the mixing bowl full of birdseed. After that, attach the string to the top of the pinecone with a thumbtack. Make as many as you can, hang them up outside your favorite window and watch the birds come and eat.
