

FRIENDLY POST

A special note from Friendly the Eagle | October 2016

Happy Autumn!

SAVINGS VS. CHECKING: DO YOU KNOW THE DIFFERENCE?

Keeping your money in two separate accounts - one for saving and one for spending - can help you keep track of how much money you have and how much you need. You already have a Friendly's Club account (great job!) and the time will come when you'll need a checking account to manage your spending money.

Unlike a savings account, where you save your money until you need it, a checking account is used to buy things you need regularly. Here is a little game that can help you learn when to use each account. List which account you'd use for:

Going to the movies

Going on vacation

Buying a car

Gas for your car

Your cell phone bill

Answers: A. Checking, B. Savings, C. Savings, D. Checking, E. Checking

TO BUY OR NOT TO BUY... THAT IS THE QUESTION!

It happens all the time. You see something on TV or at the store and immediately decide you HAVE to have it! But do you really? Here are some questions that can help you decide, "to buy or not to buy."

Do I have enough money to buy it?

Do I really need it?

Am I sure that I'll use it?

Will I have enough left over to pay bills?

Will it go on sale soon?

Can I find it cheaper somewhere else?

All of us should ask these questions before we buy things, even adults. And, if you answer them HONESTLY, you may realize that you don't really need or want it after all. Maybe it's something you can save up for, or better yet, maybe you can find it at another store or website for less money!

So be smart with your money and always ask yourself why you want something. The answer may surprise you!
